## DOLLARS COUNT

It takes longer to make money than to spend it. Every man should try as hard to save money as to make it. Saving is to accumulate--saving is the key-stone to independence.

Don't forget this point. Your future depends upon the present. The dollar saved in your daily purchases is a dollar made. To help you save money is my stronghold in business, for if I could not aid you I could not expect your trade.

Come and let's figure it over and let me prove to you that this is true. Isn't this fair?
